OUR PORTFOLIO OF SPECIALIST SERVICES

DO YOU WANT TO REDUCE RISKS IN MEDICINES MANAGEMENT?

We've been supporting healthcare providers with specialist pharmacist-led support services for over 30 years. We have the expertise and skills to provide tailored solutions for all aspects of medicines management.

Our mission is to support health and care providers attain excellence in the management of medicines

OUR PROACTIVE SERVICE

Our **Assurance Pathway** is a partnership approach with clients in which we provide consistent on-site support with a portfolio of our specialist services to deliver the highest level of assurance regarding reduction of risk and the adoption of quality practice encompassing all aspects of medicines handling and management. The programme is underpinned by regular audit and a framework of integrated governance.

OUR REACTIVE SERVICE

We understand that some clients prefer to commission services on an 'ad hoc', or 'as required' basis. Whether this is a one-off audit or some aspect of training, we have the flexibility to provide services in a manner that suit you.

Occasionally the first contact we have with an organisation is as a result of an adverse inspection by CQC or other regulator, which could jeopardise on-going registration. Our **Rapid Response Team** has been set up to assist organisations in circumstances where an immediate and intensive intervention is urgently required.

It's not just what we say...
